

Top 10 Reasons You Need the IHS Knowledge Collections Today

The IHS Knowledge Collections comprise comprehensive, authoritative engineering and technical reference content, aggregated and readily accessible in one place, to help engineers, scientists and other technical professionals quickly make the best decisions. Companies large and small, across industry sectors, have adopted the IHS Knowledge Collections to address the technical challenges impacting decision-making from research and development through to production, maintenance and disposal. These organizations are using the IHS Knowledge Collections to help them grow revenues, increase profitability and mitigate risk.

Here are the Top 10 Reasons why you and your organization need to join these successful companies in adopting the IHS Knowledge Collections today.

Find all the information you need in one place!

Full access to technical content from publishers like Wiley and McGraw-Hill, along with content from more than 400 other IHS publishing partners

Improves engineering efficiency by providing a single source for essential applied engineering books, handbooks, manuals and more, not available anywhere else through a single source, plus federated searches across third-party content that you already subscribe to from organizations like ASTM, ASME, IEEE and many others.

Discover knowledge, wherever it resides!

Federated search across internal and external sources, plus 43M+ worldwide patents.

Speeds innovation and problem-solving by allowing you to tap into knowledge already residing within your company (on shared drives, intranets, PLM applications, document repositories, and more). Track external websites for consumer sentiment insights and competitive intelligence. And pinpoint relevant global patents – the largest database of how technical problems have been solved, so you don't reinvent the wheel.

Ensure compliance!

Access your standards content (what you need to do) alongside applied engineering reference content (how you need to do it)

Ensures that you have all the information you need to implement the requirements of critical industry standards, combining the 1.6M+ standards in IHS Standards Expert with 100M+ applied engineering documents in the IHS Knowledge Collections.

Develop new products faster!

Integration with 3D CAD Models

Reduces design cycles through access to a built-in configurator to generate downloadable 3D CAD Models based on critical standards (currently available for AIA/NAS standards through IHS Standards Expert).

Top 10 Reasons You Need the IHS Knowledge Collections Today

Make better decisions faster!

What causes galvanic corrosion?

Patented question-answer search technology

Accelerates decision cycles by helping you drill down quickly to the solution you need to address an engineering or technical challenge, across internal and external sources, and applied engineering content from leading industry publishers.

Gain unique insights!

Exclusive IHS content not available anywhere else, like ESDU (engineering best practices), EIATRACK (environmental regulations), IHS Janes (Aerospace & Defense insights), and more

Provides analysis and information unavailable from any other source, covering topics applicable to a variety of industries and engineering disciplines.

Go with a trusted partner!

45+ years providing critical technical content to engineers and other technical professionals

Gives you the assurance of working with an experienced partner, with a track record of providing authoritative content to organizations like yours, and long-term relationships with critical content partners.

Tap into the wisdom of your peers!

IHS® GlobalSpec® CR4®

Online community of 65,000 engineers through the CR4 forum, by and for technically-minded people

Keeps you and your colleagues abreast of the latest technical developments and hot topics being discussed throughout the engineering community.

Value When and Where You Need It!

Easy to get started, with pro-rated subscriptions to be co-terminus with your existing subscriptions from IHS, plus enterprise-wide access

Simplifies your finance and accounting processes by aligning your IHS subscriptions with your budgetary cycle, and an enterprise-wide license can ensure access for all your engineers, regardless of their location.

Ensure user adoption!

Use a proven platform, already on the desktops of more than 600,000 users globally

Simplifies adoption across your organization by leveraging a popular platform built to align and integrate with your workflows, with easy yet powerful search capabilities, Favorites, Watch Lists and Alerts.
